EXPERIENCE

2019 • present   Airtrip Inc.

Currently freelancing in a startup developing travel applications.
• I coordinated with the lead designer to implement responsive landing pages for mobile and desktop using raw HTML/CSS and simple Javascript interactions.
• I developed a React project to add replicate native app functionalities in a browser environment. I used existing RESTful APIs from a Postman collection, XD and InVision designs and a variety of React libraries.
• I programmed and tested html emails with responsive and dynamic content using HTML and CSS

• Click for Live App

2017 • 2019   PhanthanaWattana School, Bangkok
Primary English Teacher
• Developed instructional strategies, materials and methodologies for Inclusion English learners.
• Managed around 30 students per class and supervised during collaborative projects to maintain an engaged learning environment.
• Organised and managed english camps twice a year.

2016 • 2017   Natalie Tours, Bangkok
Tour Guide
• Assisted customers with booking reservations, consulting and problem-solving.
• Led guided city tours in English.

2009 • 2012   Euroset Retail (Euroset) Activation Department, Russia
Administrator/Operator, Sales Manager
• Managed adjusting payments.
• Provided customer support, solving conflicts and problems.

PAST PROJECTS

MealScope
A twist on the the typical restaurant review website, where users can rate and discover the best meals available in a certain area, regardless of which restaurant serves them.
• Full stack, UI, Ruby on Rails, JS, Relational database, SQL, API, user authentication and authorisation, etc.
